ETMS Web Queries

ETMS (EXIM Terminal Management System), is a centralized computer system, designed and developed to suit the working of all EXIM terminals in India.

In order to provide online information of containers to our customers, spread across the world, Web Interface of ETMS queries has been developed on our webserver 'www.ccilweb.com'.

Through this interface, any customer can track and trace his containers online lying at any of CONCOR's EXIM terminals at any point of time.

Various Container related queries available right now under this interface are,

1. Container Details

- Just by entering container number, one can find out present status of the container.

2. Shipping Line wise Inventory

- Any registered shipping line can find out its inventory of Import / Export / Empty containers at any of the terminals online.

3. List of containers Arrived

- One can find out the list of containers that have arrived at a terminal during any specific period.

4. List of containers Departed

- One can find out the list of containers that have departed from a terminal during any specific period.

5. Container Activity Record

- This option provides history of a container specifying different activities that have been completed from arrival to departure.

6. Import Container Query

- This query is specific to Import containers.

7. Export Container Query

- This query is specific to export containers.

8. PDA Balance Enquiry

- Customer can find out the available balance amount in his Pre-deposit Account at any of the terminals online.

<u>Access to ETMS Web Queries</u>

All customers registered for this facility are provided a unique user-id and password to access the queries through our website.
